

PRESS RELEASE

BOOM IN SANITIZATION FOR EDILIZIACROBATICA: MORE THAN 500 IN JUST TWO MONTHS

Iovino: "The implementing decree is still missing, but we're ready to go."

Genoa, 11 June 2020 - 600 requests for sanitization have already been received by EdiliziAcrobatica S.p.A. in just two months. (the "Società" or "EDAC"), a company specializing in double safety rope construction works, such as maintenance and renovation of buildings and other architectural structures, listed on the AIM Italia segment of the Italian Stock Exchange (EDAC ticker) and on Euronext Growth (ALEAC ticker), which in the days of the alert Covid launched a new business line dedicated exclusively to environmental sanitization. Between April and May, therefore, over 500 requests were processed between Italy and France, where the Company opened offices in Perpignan, Toulouse, Nice, Lyon and Montpellier, for a turnover already of over Euro 100 thousand.

The sanitation services are requested by condominium administrators who make use of the Company's services or who had already chosen the company in the past, private citizens, owners of shops and public businesses as well as public administrations.

"Creating a new business line from scratch - comments the CEO and founder of EDAC, Riccardo Iovino - just in the days of the lockdown was very complex: we worked at a mad pace, creating a task force that was able, in addition to managing the requests that continued to arrive from our customers, to find all the tools necessary for operations. In the space of a couple of weeks we were able to start with the first sanitizations and today we can add this valuable service to our core business, the one for which we are known throughout the country: EdiliziAcrobatica".
