**EDILIZIACROBATICA: CONTRACT VALUES CONTINUE
TO GROW IN FEBRUARY**

Genoa, 7 March 2022 – EdiliziAcrobatica S.p.A. closed the month of February with a +47.4% increase in the value of contracts, which rose from €5.7 million in 2021 to €8.4 million in 2022.

Once again, despite evident international instability, the company founded by Riccardo Iovino 28 years ago continues along its path of constant growth both in Italy and abroad, specifically in France and Spain where the company has several branches.

The performance of the Italian franchise network was also decidedly positive, increasing by +45% in February to €2.9 million compared to €2 million in February 2021.

In terms of internal growth, the Group reached a total of 1,419 employees at 28 February 2022, 31.4% more than the 1,080 people employed in the same period last year.

The results of EdiliziAcrobatica France were also solidly positive, closing February with 56.8% growth, reaching €370 thousand in contract value compared to €236 thousand in 2021.

As for the Spanish company EA Iberica, the month of February saw the signing of contracts worth €79.2 thousand.

"We are very pleased with this growth", explains Riccardo Iovino, CEO & Founder of EdiliziAcrobatica S.p.A., "which is the result of constant work that began in past months and whose fruits are being harvested today and will continue to be harvested throughout the rest of the year. Once again I can only thank all the 1,419 employees of the company who work hard every day to achieve increasingly challenging goals".

EdiliziAcrobatica S.p.A. is the leading company in Italy in the exterior renovation sector. Founded in Genoa in 1994 by Riccardo Iovino, the company now has over 1400 employees and more than 100 operating areas in Italy, France and Spain. The technique it employs allows working without scaffolding or aerial platforms, thus offering end customers a quality service and the elimination of scaffold-

ing costs. The rope access that EdiliziAcrobatica is specialised in is particularly well suited to ordinary and extraordinary maintenance of buildings and apartment complexes, hotels and historical monuments. In fact, the technique developed by EdiliziAcrobatica ensures numerous benefits both in terms of accessibility for apartment complex residents and hotel guests and safety for tenants and access to monuments that always remain accessible to tourists even during restoration and maintenance works.

Listed on the Euronext Growth Milan stock exchange since November 2018 and on the Euronext Growth market in Paris since February 2019, EdiliziAcrobatica closed 2020 – the year of the pandemic and the stoppage of construction sites – with € 44.7 million in revenues, up about 14% compared to 2019. During the year the company also inaugurated a new business line dedicated to cleaning and disinfection and released EAcondominio, the first app in Italy for condominium administrators to facilitate the holding of remote tenant meetings.
