**PRESS RELEASE**

**EDILIZIACROBATICA INAUGURATES ITS FIRST POINT  
IN THE HEART OF BARCELONA**

Barcelona, 11 April 2022 – EdiliziAcrobatica S.p.A., the multinational founded in Italy 28 years ago and which today also has operating areas in France and the Principality of Monaco, has inaugurated its first branch office in Spain, at Carrer de Girona 134, in the heart of Barcelona. The inauguration comes three months after the area became fully operational (in the first quarter it signed contracts worth €230,000) and less than a year after the agreement with Acces Vertical, which gave rise to the NewCo EDILIZIACROBATICA Iberica.

Riccardo Iovino, CEO & Founder of EdiliziAcrobatica, remarked, “We are very happy with this achievement, which, despite the organisational problems caused by the pandemic, has allowed us to be present in Barcelona with our first point situated in a central, clearly visible position, just like all our points in Italy and France. As always – that is, as with every other time Acrobatica that entered a new territory – it’s only the beginning of a new adventure that the entire Group strongly believes in. Wherever we have gone, we have always demonstrated that we have a perfectly replicable and scalable business model that allows us to achieve great economic and financial results in a short time, while at the same time creating new jobs. And add to this what we at EdiliziAcrobatica consider to be our mission: to take care of the beauty of the buildings and monuments of every city. So for us being in one of the most beautiful and interesting cities in the world means knowing that we will be called upon to work to preserve a historical and cultural heritage of immense value”.

“The opening of the headquarters in Barcelona is the first step on the long road that is the EA Iberica project”, noted Ferran Parra, CEO of Acces Vertical. “It was only a few months ago that Acces Vertical and EdiliziAcrobatica joined forces to create the future leader in vertical works in Spain, and today we can confidently affirm that the Spanish launch was a success. Indeed, in just a few months EA Iberica consolidated its Barcelona office and opened an office in Lleida, which is now fully operational. In general terms, the project has already doubled its staff. The inauguration of the new branch therefore represents both the conclusion of the first stage, since it gives us direct access to the market of Barcelona with an office located on the city’s main artery, and at the same time marks the beginning of the second phase of our expansion considering that this will serve as a training centre for all the new partners who will undertake the next openings in Spain. From all this it is clear that we are on the right track and that we are well on the way to further advancing our Iberian expansion”.

\*\*\*

EdiliziAcrobatica S.p.A. is the leading company in Italy in the exterior renovation sector. Founded in Genoa in 1994 by Riccardo Iovino, the company now has almost 1,500 employees and close to 120 operating areas in Italy, France, Spain and the Principality of Monaco. The double safety rope technique it employs allows working without scaffolding or aerial platforms, thus offering end customers a quality service and the elimination of scaffolding costs. Listed on the Euronext Growth Milan market since November 2018 and on the Euronext Growth Paris market since February 2019, EdiliziAcrobatica has integrated the principles of sustainability into its Business Model, guaranteeing a naturally sustainable service and a responsible approach that pursues the well-being and satisfaction of its internal and external stakeholders, and in 2021 it obtained an ESG Rating that places it among the lowest-risk companies in its cluster of reference.
