

PRESS RELEASE

EDILIZIACROBATICA S.p.A.: HIRES 650 NEW HUMAN RESOURCES

Genoa, 21 February 2022 - The year that just ended was absolutely positive for EdiliziAcrobatica. It was a year in which revenues increased by 119% and the Group's human resources also grew exponentially, reaching 1,400 in 2021 alone. More precisely, from January to December 2021 the company grew by more than 350 people, selected by the human resources department from about 70 thousand CVs received, taking on roles ranging from area manager to rope operator and sales.

Riccardo Iovino, CEO & Founder of EdiliziAcrobatica S.p.A., commented that "Our development strategy, the same one that we exported to Spain last year where we are currently present with a point in Barcelona, is supported by our human resources, whose number is growing in relation to the growth of the company".

In light of this progress, continuing along the same path of expansion this year the company plans to add more than 650 new human resources to its workforce and is already looking nationwide for 500 rope workers, 125 salespeople and 33 area managers.

"Our strength", explained Anna Marras, partner and director with responsibility for the Group's human resources, "lies in the constant investment we are making to help our people grow first personally and then professionally, organising training and improvement programmes that help them to achieve their dreams and goals. Despite the exponential growth we've seen in recent years, during which we've more than doubled our workforce, we have remained faithful to the guiding principle of putting people first, because we are convinced that it is only by taking care of and paying attention to our employees and contractors that our company can develop in a solid, ethical manner".

To apply for a job at EdiliziAcrobatica send an email to carriere@ediliziacrobatika.com.

EdiliziAcrobatica S.p.A. is the leading company in Italy in the exterior renovation sector. Founded in Genoa in 1994 by Riccardo Iovino, the company now has around 1400 employees and more than 100 operating areas in Italy, France and Spain. The technique it employs allows working without scaffolding or aerial platforms, thus offering end customers a quality service and the elimination of scaffolding costs. The rope access that EdiliziAcrobatica is specialised in is particularly well suited to ordinary and extraordinary maintenance of buildings and apartment complexes, hotels and historical monuments.

In fact, the technique developed by EdiliziAcrobatica ensures numerous benefits both in terms of accessibility for apartment complex residents and hotel guests and safety for tenants and access to monuments that always remain accessible to tourists even during restoration and maintenance works.

Listed on the Euronext Growth Milan stock exchange since November 2018 and on the Euronext Growth market in Paris since February 2019, EdiliziAcrobatica closed 2020 – the year of the pandemic and the stoppage of construction sites – with € 44.7 million in revenues, up about 14% compared to 2019. During the year the company also inaugurated a new business line dedicated to cleaning and disinfection and released EAcondominio, the first app in Italy for condominium administrators to facilitate the holding of remote tenant meetings.
